

PORTABLE CONTAINER CLINICS

WHO ARE WE?

Heart to Heart International is a global humanitarian nonprofit organization based in Lenexa, Kansas, USA, that seeks to improve healthcare access in the U.S. and around the world by ensuring quality care is provided equitably in medically under-resourced communities and in disaster situations.

WHAT ARE CONTAINER CLINICS?

These retrofitted 20-foot shipping containers are fully equipped and ready to immediately operate as a medical facility in disaster areas, regardless of the surrounding area's infrastructure. The portable container clinics have been crucial for medical relief efforts where damaged clinics have shut down or hospitals are at capacity.

"We have been very pleased with Heart to Heart International and the incredible help during our time of need. This on-site portable clinic gives us the opportunity to bring the care directly to the people in who need it, in the place they need it, and in a timely fashion."

—Trey F., a healthcare worker
in Florida following Hurricane Ian

WHERE HAVE CLINICS BEEN IN SERVICE?

UNITED STATES:

- Texas
- Florida
- Hawaii
- Mississippi

INTERNATIONAL:

- Ukraine
- Türkiye
- Syria

CLINIC SPECS

- Made from steel shipping containers, the sturdy construction allows the clinics to withstand extreme weather conditions.
- Clinics can be shipped anywhere in the world but do not have to stay in the same place after installation. They can be moved by tow truck, crane, forklift, or even helicopter.
- Floor plans emphasize the importance of free-flowing workspace. Structural walls are strong enough to mount medical equipment and storage cabinets.
- Well-insulated with heating and cooling systems, clinics are a cost-effective, temperature-controlled work environment.
- Interior materials meet or exceed EU and U.S. health code standards.
- Clinics can be installed on foundation or cinder block footings and connect to existing utilities or be self contained.
- The total exterior size of a clinic is equivalent to about three standard parking lot spaces.
